In **Maryland**, as our attractions, hotels, restaurants and more were unable to welcome visitors, our once thriving travel and tourism industry was no longer the significant economic driver it had been.

## In 2019:

- Domestic and international travelers spent **\$19.6 billion** exploring our state
- For every **\$1 million** spent in Maryland by domestic and international travelers, **6.8 jobs are created**
- The **133,509 travel-supported jobs** represented **6.0% of Maryland's total private industry employment**, without which our **unemployment rate of 3.5%** would have been **9.3% of the labor force**
- Travel spending generated **\$3.5 billion to federal, state and local governments**, which help fund jobs and public programs such as police, firefighters, teachers, road projects and convention centers

## Maryland experienced severe losses in 2020.

- Spending by domestic and international travelers **declined by 38%**, shuttering many local businesses and putting our residents out of work
- Due to the decline in spending, **federal, state and local tax receipts declined by 30%**, jeopardizing jobs and public programs—which we need more than ever as we work toward recovery

## FROM COAST-TO-COAST, THE COVID-19 PANDEMIC HAS DECIMATED THE NATIONAL TRAVEL INDUSTRY.

2020 SPENDING: <b>\$680.3 BILLION</b>	▼ 42%	2019 SPENDING: <b>\$1.2 TRILLION</b>
